## **Elixinol's Comments on Potential Class Action**

**Elixinol Global Limited (Elixinol Global or the Company) (ASX:EXL; OTCQX:ELLXF)**, wishes to provide an update regarding Elixinol, LLC, a Colorado Limited Liability Company (**EXU**).

On 5 December 2019 [Australian Eastern Standard Time], Elixinol Global became aware of a yet-to-be served class-action suit having been filed in the United States District Court for the Northern District of California that alleges, amongst other allegations, that EXU's products are mislabeled as dietary supplements and that this may constitute misleading conduct. Elixinol Global believes that its products are accurately labeled and that the claims are without merit. Elixinol Global intends to defend itself against any such suits.

Furthermore, Elixinol Global believes this class-action suit is part of an industry-wide approach by the same class of plaintiffs based on reports that hemp-derived CBD brands Charlotte's Web (listed on Toronto Stock Exchange) and the Infinite Products Co have also been advised of proposed class action lawsuits filed in California in respect of the same subject matter as the claim against EXU.

This document was authorised to be given to the ASX by the Board of the Company.
